

# ABIOLA JOHN OLUWASEYI

## Frontend Developer

[linkedin.com/in/oluwaseyiae](https://linkedin.com/in/oluwaseyiae) | +234 810 634 7009 | [oluwaseyiae@gmail.com](mailto:oluwaseyiae@gmail.com) | [oluwaseyiae.vercel.app](https://oluwaseyiae.vercel.app)

## CAREER SUMMARY

Frontend developer (React, Next.js, TypeScript) and B.Tech Computer Science graduate from LAUTECH (2026) with 5+ live products, including 2 Paystack-powered conference platforms serving 400+ registrants. Led a 4-person volunteer team and mentored ALX software engineering students. Based in Ogbomoso, Nigeria open to remote, on-site (Lagos, Ibadan) and relocation. Seeking an entry-level frontend role or internship.

## SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Frameworks & Libraries:** React, Next.js, Tailwind CSS, shadcn/ui, Framer Motion
- **State & Data:** TanStack Query, Zustand, React Hook Form, Zod, Supabase, REST APIs
- **Tools & Workflow:** Git, Vite, npm/yarn, Jest, Vercel

## PROJECTS

### Acta – Full-Stack Task & Productivity Workspace

[Live Demo](#) | [GitHub](#)

- Built Acta, a task and workspace management app with React 19, TypeScript and shadcn/ui, backed by a Django REST Framework and PostgreSQL API.
- Implemented optimistic updates with TanStack Query v5 (task changes render instantly and roll back on API failure), Zustand for persisted UI state, silent JWT refresh via Axios interceptors, and Google OAuth.
- Built list and Kanban views grouped by Today, Tomorrow and Inbox, three theme presets (Light, Dark, Midnight), and an adaptive sidebar that collapses on desktop and becomes a sliding drawer on mobile.

### OTEI 2026 – Conference Platform

[Live Demo](#) | [GitHub](#)

- Built the first full-stack website for the inaugural OTEI 2026 conference (React, Vite, Tailwind CSS, Supabase), with attendee, volunteer, sponsor and exhibitor flows handling 200+ registrations.
- Built a four-tier registration flow (attendee, volunteer, sponsor, exhibitor) with Resend confirmation emails via Supabase Edge Functions.
- Built a password-protected admin dashboard with charts, search/filter, and CSV export across four datasets.

## EXPERIENCE

### Volunteer Frontend Team Lead, [Higher Ground Baptist Church, Ogbomoso](#)

Jan 2024 – Present

- Led 4 volunteers (designers, developers, content creators), running pull request reviews and a mobile-first checklist.
- Shipped BISUM (Next.js) and Photizo (React), two Paystack-powered conference platforms built with TypeScript, Supabase and Resend, serving 400+ registrants, with admin dashboards gated by Supabase Auth and Row Level Security.
- Replaced paper registration, cutting administrative data processing time by 40%.

### Freelance Frontend Developer, Independent

2025 – Present

- Build responsive websites and web apps for clients with React, Next.js and TypeScript, including OTEI 2026 (see Projects), from requirements to deployment.
- Built a brand website for Lewa's Growth Oil, a haircare company, with an ingredient showcase, FAQ and one-tap WhatsApp ordering (React 19, TypeScript, Tailwind CSS v4).

## EDUCATION

### [ALX Africa](#) – Software Engineering

Jan 2025 – Sept 2025

Front End Development Program – [Certificate](#)

Back End Development – [Certificate](#)

AI for Developers – [Certificate](#)

Volunteer mentor to aspiring software engineers, Sept 2025 – Feb 2026

### [Ladoke Akintola University of Technology, Ogbomoso.](#)

Jan 2022 – Aug 2026

Bachelor of Technology in Computer Science
